

# The Daily Gazetteer.

SATURDAY, APRIL 21, 1744.

Yesterday arriv'd a Mail from Holland.

Moscow, March 26.

THE Court has suspended, for the present, the Conferences enter'd into with the M. de la Chetardie; and a Resolution has been taken to receive the Propositions of the Lord Tyrrelly, in order to consider how far they are compatible with each other, and which is most for the Advantage of the Russian Empire. Sir Cyril Wyche has taken Leave of the Empress, and the Court, in Writing, and immediately after set out for Constantinople. It being the Custom, at this Court, to make a Present to the Princesses of the Blood the first Time they breathe a Vein, the Empress sent the Princess of Anhalt Zerbst a Cross for the Neck, and a Pair of Diamond Earrings, worth 60,000 Rubles. Her Imperial Majesty declared soon after, in Council, that she intended a Marriage between his Imperial Highness and that Princess, which should be celebrated about Midsummer; and that immediately after she intended to associate him in the Government.

Stockholm, April 12. We are actually building at Carlscroon several Men of War, for the Service of the Crown of France, which are ordered to be finished with the utmost Expedition. The Senators Count Rosen and Palmfeld are appointed to go and meet the Princess Louisa-Ulrica, who is to marry the Prince Royal of Sweden; the new Palace is furnishing for her Reception, and all Things will be ready by the First of June. The Russian Troops are to embark the Beginning of next Month.

Vienna, April 15. It is said, a Resolution was taken, in the late Council of State, to confirm the Privileges of the Protestants in Hungary, to lessen their Taxes, and to give them the strongest Assurances, that her Majesty will preserve the most grateful Remembrance of the Zeal and Loyalty, which, since the breaking out of the present Troubles, they have shewn for her Service.

Berlin, April 18. A considerable Body of Troops have received Orders to form a Camp, between this City and Potsdam, towards the End of the Month of May. Several Princes and Princesses of the Royal Family have been invited hither, about the same Time, in order to their being present at the Espousal of the Princess Ulrica with the Prince of Sweden. Several Officers in his Majesty's Service, who acted as Volunteers last Year in the Queen of Hungary's Armies, demanded the like Leave lately, but were refused; his Majesty telling them, that he was not displeas'd with their Request, but believed he should have occasion for their Service, which Answer has occasion'd much Speculation.

Dresden, April 19. There arriv'd here Yesterday an Express from London; which, after having delivered the Letters he was charg'd with for this Court, continued his Journey directly for Vienna. We learn, that War is declared between Great Britain and France; upon which his Britannick Majesty has thought fit to demand the Succours which are due to him by Treaty, which were immediately promised; and we have also 6000 Men ready to march into Franconia, at the Request of the Queen of Hungary. The King, in Compliance with the Request of the Polish Nobility, has determined to set out for that Kingdom, ten Days sooner than he at first intended.

Wurtemberg, April 17. The Professor Bosc, on the 14th of this Month, made an Experiment in the Arsenal of this City, of the Force of his little Machine for electrifying Bodies. This was performed in the Presence of Baron Bothmer, who commands here, and the principal Officers of the Garison, and succeeded perfectly, so that 16 or 18 Soldiers were electrified in an Instant; and the same Operation might be performed with Success on 1000 Cuirassiers, completely armed, in an Instant, with the same Ease.

Metz, April 23. Our Serene Elector has published an Order here, requiring all the Inhabitants of this City to provide themselves with Victuals sufficient for a Year. We are informed, that the Austrians intended to take Possession of the strong Post at Heilbronn. They talk of an Expedient that has been found out for compromising the troublesome Affair of the Dictature; it is agreed, that the Queen of Hungary shall withdraw her Troops, and that others, conceived in more moderate Terms, shall be presented and received. This Expedient is said to have been offer'd by the Court of Vienna, and is like to meet with little or no Opposition, on the Part of the Emperor.

Frankfort, April 21. The Imperial Troops are every where in Motion, in order to march to the Place of general Rendezvous, which it is thought, will be in the Neighbourhood of Philipsbourg; this occasions great Speculation, because it seems to be entirely out of the Road to Bavaria. All the French Merchants that were at our Fair, are retired very hastily, on the News that a Body of Austrian Troops were arriv'd near Philipsbourg. The Count de Baviere brought the Emperor a Remittance of above a Million, in Letters of Exchange. The Queen of Hungary has published two Pieces lately; the one, tending to prove that the Emperor has broke his Neutrality; the other, to shew that the Electorate of Bavaria has been ruin'd by its own Armies, and those of France. We have this Moment Advice, that the French have pass'd the Rhine with 40,000 Men.

Paris, April 14. The King has just received a Courier from Toulon, with Advice, that the whole French Squadron, together with eight Spanish Ships of the Line, are safely arriv'd at the Island of Hieres. His Majesty told the News to every Body, and it is scarce possible to express the Joy shewn upon this Occasion. It is certain that the King makes the Campaign in Person. It is said, that M. Belleisle has Orders to march his Troops directly into Westphalia; and it is not doubted, that he intends to attack the Electorate of Hanover. There is a Report, that the Prince of Conti has, with some Difficulty, made himself Master of Mont Alban; and there seems to be now nothing between his Troops and Villafra, where Admiral Matthews is arriv'd with 38 Men of War. They also mention a prodigious Storm that has been in that Neighbourhood, by which, amongst other Accidents, a Captain, with five Grenadiers, were struck dead by one Clap of Thunder.

Hague, April 27. The Marquis de Fenelon had Yesterday, in the Afternoon, a Conference of an Hour, with the Lords of the Regency; in which he was told, that their High Mightinesses were dispos'd to send an Ambassador Extraordinary to his Court, in order to propose a Cessation of Arms upon certain Terms; and that, in the mean time, they expected his most Christian Majesty would not act in the Low Countries. His Excellency seem'd to be very well pleas'd with this Answer, and set out, about Seven this Morning, with his Consort, for Paris.

Hague, April 29. Mr. Trevor has received, by an Express from Villafra, the agreeable News, that Admiral Matthews is return'd to the Coast of Provence with a Fleet of 38 Men of War. Their High Mightinesses the States General, have been pleas'd to make Choice of Count William de Wassenaer for their Minister Extraordinary and Plenipotentiary to the Court of France.

Henry Boyle, Esq; Speaker of the Hon. House of Commons, were sworn Lords Justices of this Kingdom, and receiv'd the Sword; their Excellencies were attended by the State-Officers and a Squadron of Dragoons, the Flag was displayed upon Bermingham Tower, the Bells rung, and the great Guns at the Phoenix Park fired three Rounds.

War-Office, April 18, 1744.

IT is his Majesty's Pleasure, That all the Recruiting Officers now in England, or who shall come to England, belonging to the Irish Regiments, do repair to the Counties of Westmoreland, Lancaster, Chester, Salop, Hereford, Nottingham, Stafford, Gloucester, Worcester, and North and South Wales. And that they do act in Conformity to the Instructions for the Recruiting Officers, published in the Gazette, and other Papers, by his Majesty's Command.

By his Majesty's Command,

William Yonge.

THIS is likewise to give Notice, That where the Commissioners shall have levied any Number of Volunteers and Press'd Men, and no Officer shall appear to receive them, the said Commissioners are desired to return to the Secretary at War, a List of their Names, distinguishing the Volunteers and Press'd Men. In which Case, Orders will be immediately sent to the Officers of the Neighbouring Regiments to receive them.

William Yonge.

**THE** Lords Commissioners of the Admiralty being desirous to invite and encourage Able bodied Landmen to serve on board his Majesty's Ships of War, and having Reason to hope, that from the Willingness several have shown to do so, many more would come and enter, if they were rightly inform'd of the Methods of going about it, and of the Encouragement the Law allows them; their Lordships do hereby publish and advise, that all such Able-bodied Landmen, as are not under the Age of Nineteen, nor more than Thirty-five Years, who are willing to serve his Majesty at Sea, do go before some Justice of the Peace, Magistrate of a Town, or a Commission Officer of the Fleet, who are hereby desired to give them a Certificate of the Day of their Appearance, and of their declaring to them their Intentions to repair on board a Man of War, and at what Port; which Certificate shall protect them for a reasonable Time to proceed to the said Port: And when they arrive there, if the Port be Chatham, Portsmouth, or Plymouth, they are to present themselves to the Commissioners of the Navy; but if they come to London, they are to apply to the Regulating Captains, at the Castle in Mark-lane, which Commissioners and Regulating Captains have Directions to send them on board such Ships of War as they shall chuse to serve in: And for their Encouragement to enter into his Majesty's Service, they shall enter into Pay from the Day of the Date of the Certificate of their Entry; and shall be allowed a Penny a Mile Conduct Money, from the Place they set out from; and also shall receive an Advance of Five and Thirty Shillings before the Ship they go on board proceeds to Sea.

Tho. Corbett.

The following Orders and Instructions having been given to the Colonels, and Recruiting Officers, of his Majesty's Land Forces and Marines, are published for the Information of the Commissioners, and others, authorized to put in Execution an Act of this Session of Parliament, entitled, *An Act for the speedy and effectual recruiting his Majesty's Land Forces and Marines.*

**COMPLAINTS** having been made by the Commissioners, appointed by the Act now in Force for the speedy and effectual Recruiting his Majesty's Land Forces and Marines, that the Officers appointed for the receiving of the Press'd Men and Volunteers, have not duly attended their Meetings, I am commanded to acquaint you, it is his Majesty's express Will and Pleasure, that you do take care, that the Officers of your Regiment do attend the next, and all other Meetings, in the Counties and Places to which your Regiment is appointed.

And as other Regiments are allotted to the same Counties with your Regiment, the Officers you shall appoint for this Service, upon their Arrival in those Counties, are to settle and agree, with the Officers of the other Regiments, how to dispose and divide themselves, so that the Commissioners be every-where attended, in order to the receiving from them such Men as shall be by them delivered over from Time to Time.

I am further to acquaint you, that all the Recruits that shall be so delivered by the Commissioners, be received by your Officers, altho' such Recruits should exceed the Number wanting for your Regiment; such Supernumeraries being afterwards to be disposed of for his Majesty's Service; for whom the Officers shall be fully reimbursed the Charge they shall be at thereby.

And so far as Certificates are, by the said Act, required to be, by the said Commissioners, transmitted to this Office, of the Persons by them levied, and to whom delivered, it is his Majesty's Pleasure, that you give it as an Instruction to the Officers you employ on this Service, that they take care to procure Duplicates thereof, which are to be lodged in the hands of the Agent of the Regiment, to be at all Times forth coming, on any Occasion that may happen.

And as the Commissioners are, by the said Act, directed to use their best Judgment and Endeavours, that the Soldiers by them levied shall be such Able-bodied Men as are fit to serve his Majesty; you are to give it as a farther Instruction to your said Officers, that where they shall find a reasonable Cause to object to any Man, on account of his Age, or being lame, burthen, under Size, or any other Way unfit for his Majesty's Service, that then, in case they shall be obliged by the said Commissioners to receive such Men, they be careful to make their Objections openly upon the Place, and endorse such their Objections on the Back of the Duplicates they are to send up, attested, if it may be, by Two Witnesses: They are likewise to be careful not to receive any Drift Men, or known Papists.

By His Majesty's Command,  
William Yonge.

But if they fail to repair on board her when their Leave is expired, they will not only lose the aforesaid Wages, but Directions will be given for apprehending them, in order to their being tried at a Court Martial, as Deserters, and punished with the utmost Severity of the Law.

The late vigorous Attempts of the Emiffaries of Rome, to  
diffuse their poisonous Tenets among a free and Protestant  
People, and that under the happy Government of an illustrious  
Protestant Prince, must raise in every sober and generous  
Mind a just Indignation against them, and a tender Compa-  
ssion to the Weak and Ignorant, who are most exposed to their  
horrid Delusions. Surely, never did any Thing, that wore  
the sacred Name of Religion, appear in the World, so mon-  
strously absurd and detestable as Popery, which is the cruellest  
Merchandise of Men's Lives and Souls, and lies in direct  
Contradiction to Reason and Revelation, to Morality and  
Common Sense, and to all the dearest Interests of Civil Society,  
of Liberty, Conscience, and Eternal Salvation.

**Dr. ROBERT EATON'S**  
**BALSAMICK STYPTICK,**

Truly prepared and sold at the Doctor's late Dwelling  
House, now Mrs. DUTTON's, in Salisbury-Court,  
Fleet-street.

**THIS Medicine restrains, in a most**  
surprising Manner, all internal as well as external  
Hæmorrhages, i. e. it infallibly and quickly stops all danger-  
ous bleedings at the Nose or Gums, spitting or vomiting  
Blood; also the immoderate Flux of the Hemorrhoids or Men-  
ses; bloody Urine or Stools, bleeding of large Wounds, &c.  
(if used according to the plain Directions given with it) as will  
appear by the Certificates of several Eminent Physicians,  
and in the large Account of this Medicine, written by the  
Doctor himself, and dedicated to the College of Physicians  
a little before his Death.

It keeps good for many Years, at Sea or on Shore, in all  
Climates; therefore must be universally Useful.

The Doctor not only obtaining his Majesty's Letters Patent  
for the sole Vending of this most Excellent Medicine; but  
also a Clause in a late Act of Parliament, exempting this  
Medicine from the Inspection of the Censors of the College  
of Physicians, to which all other Medicines are liable.

N. B. The late Learned Dr. CHEYNE, in his Excellent  
Piece, entitled The Natural Method of curing the Diseases of  
the Body, &c. prefers Eaton's Styptick to Helvetius's and  
other Stypticks; and speaks of it as follows:—Every one  
knows the agglutinating Quality of sweet Blood, and I ap-  
prehend it is to this, that Eaton's Styptick owes its soft,  
mild, soldering Efficacy.—It is more mild, substantial  
and soft, than the mildest Steel Preparations, and more fit  
to patch a Hole, or glew up a Rupture, or to give a Balsam  
to the arid and inflam'd flowing Blood of the Patient. He  
says, he is confirm'd in this by a Physician of great Worth  
and Candor, who has great Opportunities of dealing in such  
Cases, by his Practice in Midwifery. Sec p. 182.

**Mr. GREENOUGH'S TINCTURES** for  
serving the TEETH and GUMS of a beautiful Color,  
and for Curing the TOOTH-ACH. Published by Vir-  
tue of the KING's ROYAL LETTERS PATENT.

An ABSTRACT of which is as follows,  
**GEORGE R.**

**GEORGE** the Second, by the Grace of  
God, of Great-Britain, France, and Ireland, King, Defender  
of the Faith, &c. to all whom these Presents shall come greeting,  
Whereas Our Trusty and Well-beloved Thomas Greenough, of St. Lo-  
Us, that at a considerable Expence, and much Study, he has at last  
found out and invented a MEDICINE that destroys the SCURVY  
tumor, sweetens the BREATH, and effectually cures the TOOTH-  
ACH, as Multitudes of Our Subjects have happily experienced, &c.  
And We being willing to give Encouragement to all Arts and In-  
ventions which may be for the publick Good, know ye therefore,  
that We, of Our especial Grace, certain Knowledge, and mere Mo-  
tion, have given and granted, and by these Presents, for Us, Our  
Heirs and Successors, do give and grant unto the said Thomas Gre-  
nough, his Assigns, &c. and such Person only as they shall agree with,  
Our especial Licence, full Power, sole Privilege and Authority, that  
they vend the same, &c. And we do by these Presents strictly com-  
mand all our Subjects not to put in Practice the said Invention, nor in any  
Way counterfeit, imitate, or resemble the said Invention, nor in any  
further Contempt of this Our Royal Command.

In Witness whereof We have caused these Our Letters to be made  
Patent.

Witness OUR SELF at Westminster, the 9th Day of February,  
in the Seventh Year of Our Reign.

Notwithstanding the Complaints of the Teeth and Gums are so ge-  
neral, and the Pain of the Tooth-Ach so intense and intolerable, no  
Medicine has yet been offer'd the Publick which carries the least show  
or Probability of curing either. For cleaning the Teeth, and making  
them white, the Powders have hitherto bid the fairest, and will in a  
great Measure answer that Purpose; but then the Remedy is worse  
than the Disease, for those very Powders rub away the Gums, wear of  
the Enamel from the Teeth, leave their bony Substance expos'd to Air,  
and thereby subject the Teeth to Decay: A Consequence but  
enough!

Nor are the Methods of curing the Tooth-Ach much better cal-  
culated, there being nothing yet propos'd but Drawing, or the Use of such  
Medicines as tend to destroy the Nerves of the Teeth, and of course the  
Tooth itself.

The Reason we have hitherto had no effectual Remedy for either  
of those Complaints, seems to be this, That the Cause of the Disor-  
der has not been rightly understood. 'Tis what the Faculty have been  
concern'd themselves with, and therefore it has for the most part lay  
left to the Province of People quite unskill'd in Anatomy and Physi-  
c, from whom little Benefit can be expected.

Experience tells us, that a Diffusion of Humours is the true Cause  
of the Pain, and that a too weak and lax Texture of the Fibres that  
support the Gums (the Consequences of which are, that the Blood and  
Humors of the Parts become liable to a Stagnation, or weak Circu-  
lation, from whence they grow putrid, sharp, acrimonious, and corrode)  
is the true Reason of the other Disorders of the Teeth, and of the decay  
in the Gums.

To cure, therefore, the Tooth-Ach, a Medicine should be used  
that will both attenuate and dissolve the Humours, and prevent their  
further Diffusion; and to remedy the other Disorders of the Teeth and  
Gums, such Things should be made Use of as will strengthen and  
raise up the Fibres, and promote the Circulation of the Humors; and  
upon this Basis that the present Medicine is founded.

The above Medicine, that I say is  
more effectual, and is more con-  
veniently used, is divided into two  
Tinctures:

**The One for Preserving the  
TEETH,**

Which in a few times using quickly  
cures the Scurvy in the Gums, and  
enables them to grow down close and  
regular to the Teeth, makes the Teeth  
white and beautiful, preserves them  
from growing rotten, and keeps such as  
are decay'd from becoming  
worse; and in a little Time removes the  
Cause of an ill-favored Mouth,  
except where the Lungs are ulcerated. Each Bottle of this Tincture  
is seal'd with the above Impression in Red Wax. Price One Shilling.

**The other for Curing the  
TOOTH-ACH,**

Even when most violent; I say  
a larger Proportion of some of the  
ingredients (with a little Variation)  
put, to make it more immediately ef-  
fectual. Each Bottle of this Tincture  
is likewise seal'd as in the Mouth  
with Black Wax. Price One Shilling.

N. B. By Virtue of the Patent above-mention'd, I have caused  
John Newbery, my only Vender of these Tinctures, to obtain  
Persons are desir'd to apply for them, at his Warehouse, the Blue  
Crown, near Devereux-Court, without Temple-Bar, Middlesex,  
at his Shop in Reading, Berks: At which Places, Merchants, Cap-  
tains of Ships, and Country-Dealers, will have good Allowance in  
bulk; and particular Bills in any Language will be printed for  
as take Quantities to Foreign Parts.

Sold also retail at my House, near St. Sepulchre's Church, in  
Hill, London.

**THOMAS GREENOUGH.**

To prevent Mistakes observe the following Direction—  
you have any Disorder in the TEETH, GUMS, or BREATH, or  
for the Tincture for preserving the Teeth; but if you are afflicted with  
a Pain in the TEETH only, then ask for the Tincture for curing the  
TOOTH-ACH.
